Evan Julius

(316) 370-1459

EDUCATION

Bachelor of Science in Computer Science May 2025
Wichita State University, Wichita,
Associates of General Study May 2017
Butler County Community College, El Dorado, KS

SKILLS

Office: ServiceNow, Microsoft Office 365, and LucidCharts (UML)

Computer: Command Line, Powershell, Linux/UNIX Shell, Visual Studio Code, VSCode, and Docker

Programming Languages: Python, C++/C#, SQL, and JavaScript

Frameworks: React Native, React Expo, Flask, FastAPI, and ASP.NET

Concepts: Application Analysis, Platform Development, and Global Operations

RELEVANT PROJECTS

Image Recognition Application Fall 2023-Spring 2024
Wichita State University, Wichita, KS

- Conducted research on psychological workload and cognitive function to analyze and predict data to enhance vigilance monitoring and recognition systems.
- Investigated human-computer interaction, utilized data aggregation techniques, and developed feature recognition models using python modules Scikit-learn, and OpenCV2.
- Analyzed user requirements, bug fixes, and enhancements for applications by identifying problems throughout operational procedures, input and output operations, and system workflows.
- Developed an Image classification system utilizing OpenCV, and the Jaccard Index to detect facial features and monitor concentration levels of individuals that are in frame of the camera. Achieving >90% of accuracy and predication rates.
- Collaborated with team members to refine engineering and design methodologies to improve user experience and system performance.

RELATABLE WORK EXPERIENCE

Line Cook Present
Larcher

- Maintain ServeSafe rules while preparing food for guests and the public.
- Maintaining and orderly and clean dining room for the pubic.
- Maintaining a high degree of cleanliness, and presence in the dining room.
- Open and close the front of house lobby for guests and visitors.
- Cleaning and clearing tables of dining ware and ensuring that each area is cleaned and swept.
- Refill ice wells at the Bar, and the Expo line for serving.
- Sweep and clean bathrooms accordingly.

Contractor / Consultant – IT Support
Ennovar – Textron Aviation Help Hangar Support, Wichita, KS. October 2024 - March 2025

- Utilize ServiceNow reports and monitored IT asset health to identify old or out of date assets.
- Assisted with asset issues that escalate beyond the status of incident and coordinated with the appropriate team members to troubleshoot and resolve issues in a timely manner.
- Scheduled and coordinated warranty work for desktop and laptops to prepare out of data desktops and laptops for recycling providing support of the lifecycle process for the end users technology assets.
- Created and routed basic ServiceNow Incident tickets to appropriate IT teams to resolve/ and close IT tickets as they are completed.
- Assisted in documenting solutions for recurring issues into a formatted knowledge base for the support team and to support business solutions.

Contractor / Consultant – Application Support Analyst
Ennovar – Koch Minerals and Trading, Wichita, KS June 2024 - October 2024

- Analyzed and resolved application issues to support mission-critical systems, and monitored events, logs, and data collection techniques.
- Interacted with client calls, provided customer service, and responded to IT requests through data handlining, event escalation, and performed basic application and infrastructure monitoring functions.
- Proactively identified and resolved complex technical problems related to business applications.
- Created and maintained documentation for support process, troubleshooting steps, and knowledge base articles. Worked alongside developers' system administrators, and other IT professionals to resolve complex issues and improve system performance.
- Provided system administration, ensuring seamless integration of cloud and on-premises service tools like ServiceNow, SCCM, PowerShell, and cloud technologies like AWS, MongoDB, and RabbitMQ.

OTHER WORK EXPERIENCE

Crew Member and Trainer
Texas Roadhouse, Lawrence, KS July 2017 – September 2019

- Prepared food and followed ServeSafe guidelines.
- Inventoried, ordered, and restocked supplies as necessary.
- Sanitized kitchen area and informed supervisor of all safety hazards.
- Trained new employes to follow ServeSafe regulations, and the layout of the Kitchen.

Head Lifeguard, and Lifeguard Instructor
Derby Recreation Commission, Derby, Kansas May 2013-June 2017

- Aided with staff selection, training, and supervision.
- Instructed lifeguards over rescue techniques and PPE equipment.
- Guided participates through safety regulations, and instructed water safety.
- Practiced problem-solving skills, conflict management, customer service, CPR, First-Aid, and other lifesaving skills.

Accomplishments

Best Senior Design Runner Up May 2024
Engineering Open House, Distraction Prevention and Guided Learning (Sponsor Joe Jabara)

- Developed an Image classification system utilizing OpenCV, and the Jaccard Index to detect facial features and monitor concentration levels of individuals that are in frame of the camera. Achieving >90% of accuracy and predication rates.
- Developed a working artificial enhanced Chatbot features that utilized multiheaded attention models to query accurate answers from personalized datasets and employing OpenAI embeddings to improve the performance of the LLM model.
- Provide a working Web Application that allows the user to navigate and explore features of a working prototype using ReactJS, and Python.
